Verbal, physical, written or other abuse (including threats of abuse or retribution) of any Yoga Om customer, employee, member, or officer will result in immediate account termination.

If illness or injury affects your membership we will look at each case individually. Please advise us immediately. A doctor's certificate will be required in most cases.

Courses at Yoga Om - Terms and Conditions

Due to limited number in all our courses, cancellations and date changes STRICTLY not permitted 3 days before the course. In case of a no-show you will forfeit the course fee.

If you are repeating the course, you need to re book into the course.

Extensions and/or Cancellations for Illness & Injury

Yoga has huge remedial benefits, and has traditionally been used for healing. If practiced with awareness, under the guidance of your teacher, Yoga can be a helpful part of rehabilitating an injury and can be an important component of any wellness program. For serious injuries and chronic or acute illnesses, you must always consult your doctor or health care practitioner.

If you decide to continue your yoga practice at Yoga Om, we suggest that you notify your teacher prior to class to discuss your individual situation so that together you can decide on appropriate modifications to your practice or so that he or she can help you seek the next level of care.
